1. Qualitative Information on Quarterly Consolidated Financial Performance

(1) Qualitative Information Regarding Consolidated Results of Operations

In the cumulative second quarter (January 1, 2013 to June 30, 2013) of the current fiscal year, the Japanese economy showed signs of recovery, particularly the export sector, as share prices rebounded on expectations for economic stimulus measures from the new administration, and the correction of the yen's appreciation. However, the outlook for the domestic economy and personal consumption remained unclear due to uncertainties over the government's future growth strategy, Europe's debt crisis, and the slowdown of the Chinese economy.

In this environment, the Senshukai Group pulled together to achieve the targets of its medium-term management plan which concludes in this fiscal year.

Net sales in the cumulative second quarter decreased 1.7% year-over-year to 72,736 million yen.

As for profits, due to an improvement in the gross profit margin in the mail-order business, and the cutting of selling, general and administrative expenses, operating income rose 113.3% year-over-year to 1,626 million yen.

Ordinary income rose 69.1% year-over-year to 1,995 million yen due to foreign exchange gains and other factors. Net income rose 35.8% to 1,241 million yen due to loss on sales and retirement of noncurrent assets and other factors.

Overview by segment

(Mail-order Business)

Consolidated sales in the mail-order business, comprising the catalog and the *hanpukai* businesses, decreased 1.4% year-over-year to 65,900 million yen in the cumulative second quarter, due to weak sales of spring and summer items in the catalog business resulting from lower temperatures in April, and a decline in sales in the *hanpukai* business.

The gross profit margin improved due to fewer valuation losses on goods thanks to the early implementation of bargain and clearance sales. Operating income rose 245.6% year-over-year to 1,344 million yen due to lower distribution-related costs thanks to more efficient logistics, and cuts made to printing costs from review in the paper used in printing catalogs.

1) Catalog business

Consolidated sales in the catalog business decreased 0.8% year-over-year to 61,826 million yen in the cumulative second quarter.

2) *Hanpukai* business

Consolidated sales in the *hanpukai* business decreased 10.2% year-over-year to 4,074 million yen in the cumulative second quarter.

(Bridal Business)

Consolidated sales in the bridal business, centered on the house wedding business, decreased 0.6% year-over-year to 4,708 million yen in the cumulative second quarter, despite an increase in average sales per wedding/reception, due to fewer weddings. Operating income decreased 72.5% year-over-year to 65 million yen.

(Corporates Business)

Consolidated sales in the corporates business, which provides products and services to corporations, increased 0.3% year-over-year to 1,887 million yen, and operating income increased 19.7% year-over-year to 212 million yen.

(Others)

Consolidated sales in other businesses, which consist of the services business (primarily travel and credit card services) and the pet business (pet goods sales through retail stores), decreased 58.6% year-over-year to 239 million yen in the cumulative second quarter due to withdrawal from pet business. Operating income totaled 4 million yen, compared with an operating loss of 43 million yen in the same period of the previous fiscal year.

Note: As Senshukai changed its reportable segment classifications from the third quarter of the previous fiscal year, the new classifications have been applied to year-ago figures to allow for year-over-year comparisons. Please see “3. Quarterly Consolidated Financial Statements, (6) Segment and Other Information” for details.

(2) Qualitative Information Regarding Consolidated Financial Position

(Balance sheet position)

Assets totaled 91,296 million yen at the end of the second quarter, down 1,591 million yen from the end of the previous fiscal year.

Current assets decreased 1,751 million yen to 44,496 million yen. The main factors were increases of 540 million yen in cash and deposits and 268 million yen in notes and accounts receivable-trade, and decreases of 1,882 million yen in accounts receivable-other and 822 million yen in other. Noncurrent assets increased 160 million yen to 46,799 million yen. The main factors were decreases of 448 million yen in property, plant and equipment and 388 million yen in intangible assets, and an increase of 997 million yen in investments and other assets.

Current liabilities decreased 3,494 million yen to 33,567 million yen. The main factors were decreases of 2,510 million yen in notes and accounts payable-trade and 1,009 million yen in short-term loans payable. Noncurrent liabilities decreased 424 million yen to 10,468 million yen. The main factors were an increase of 907 million yen in other, and decreases of 985 million yen in long-term loans payable and 350 million yen in bonds payable.

Net assets increased 2,328 million yen to 47,260 million yen. The main factors were increases of 896 million yen in valuation difference on available-for-sale securities, 536 million yen in deferred gains or losses on hedges and 486 million yen in retained earnings. Consequently, the equity ratio was 51.8%.

(Cash flow position)

The balance of cash and cash equivalents at the end of the second quarter of the current fiscal year was 7,993 million yen, an increase of 540 million yen from the end of the previous fiscal year.

Operating activities provided net cash of 2,857 million yen (year-over-year increase in income of 1,260 million yen). The main cash inflows were a decrease in other current assets of 2,653 million yen, income before income taxes and minority interests of 1,412 million yen and depreciation and amortization of 1,293 million yen. The main cash outflows were a decrease in other current liabilities of 1,655 million yen, and a decrease in notes and accounts payable-trade of 1,303 million yen.

Investing activities provided net cash of 511 million yen (net cash used of 1,813 million yen in the same period of the previous fiscal year). The main cash inflows were 900 million yen in proceeds from redemption of investment securities and 420 million yen in proceeds from sales of property, plant and equipment. The main cash outflows were 553 million yen for the purchase of property, plant and equipment, and 307 million yen for the purchase of intangible assets.

Financing activities used net cash of 2,843 million yen (year-over-year decrease in outlays of 670 million yen). The main cash outflows were repayment of long-term loans payable of 1,244 million yen, a decrease in short-term loans payable of 1,000 million yen and cash dividends paid of 430 million yen.

(3) Qualitative Information Regarding Consolidated Outlook

Senshukai has revised the consolidated outlook for the current fiscal year (January 1, 2013 to December 31, 2013) as follows, as net sales are expected to continue to decline in the second half.

Consolidated Outlook for Fiscal Year 2013 (January 1, 2013 – December 31, 2013)

	Net sales	Operating income	Ordinary income	Net income	Net income per share

2. Matters Related to Summary Information (Notes)

(1) Changes in Significant Subsidiaries during the Period

Not applicable.

(2) Application of Special Accounting Methods for Presenting Quarterly Consolidated Financial Statements

(Calculation of tax expense)

The tax expenses are calculated by first estimating the effective tax rate after the application of tax effect accounting with respect to income before income taxes and minority interests during the fiscal year in which the quarter under review falls, and multiplying that rate by the income before income taxes and minority interests for the quarter under review. However, the Company uses legally stipulated effective tax rates to calculate tax expenses for cases in which using estimated tax rates gives a noticeably irrational result.

(3) Changes in Accounting Policies and Accounting-based Estimates, and Restatements

(Changes in accounting policies that are difficult to distinguish from changes in accounting-based estimates)

The Company and its domestic consolidated subsidiaries depreciate the property, plant and equipment acquired on or after January 1, 2013, using the depreciation method stipulated in the revised Corporation Tax Act from the first quarter of the current fiscal year, in line with revisions to the Corporation Tax Act.

This change has no significant effect on the amount of income for the cumulative second quarter of the current fiscal year.
