1. Analysis of Operating Results and Financial Position

(1) Analysis of Operating Results

Overview

In the fiscal year under review, share prices rose and the yen depreciated due to the government's economic policies and the Bank of Japan's monetary easing, and corporate profits and personal consumption showed signs of picking up, but as these improvements were limited, the outlook for the Japanese economy remained uncertain. In the retail industry, department stores reported strong sales of some luxury items, but overall conditions in the retail industry remained harsh. In the mail-order industry, sales continued to rise as the spread of smartphones, tablets, and other mobile devices expanded the online shopping market, and the fusion of online and brick-and-mortar shopping is likely to expand the market further. However, competition is intensifying due to the entry of companies from outside the industry, and M&A activity.

In this environment, the Senshukai Group pulled together to advance its growth strategy and achieve the targets of its medium-term management plan which concludes in this fiscal year.

Net sales in the current fiscal year decreased 2.9% year-over-year to 141,552 million yen due to weak sales in the mail-order business.

As for profits, due to an improvement in the gross profit margin, and the cutting of selling, general and administrative expenses, operating income increased 90.5% year-over-year to 4,019 million yen. Ordinary income increased 67.5% year-over-year to 4,631 million yen. Net income increased 99.4% to 4,046 million yen due to loss on sales and retirement of noncurrent assets and other factors.

Overview by segment

(Mail-order Business)

Consolidated sales in the mail-order business, comprising the catalog and the *hanpukai* businesses, decreased 3.0% year-over-year to 126,498 million yen in the current fiscal year. Sales declined, but the gross profit margin improved thanks to higher sales of strategic products and review of the price range. Operating income in the mail-order business surged 185.6% year-over-year to 2,840 million yen. There were reductions in distribution-related costs due to more efficient logistics as well as in catalog-related costs from review in the printing costs.

1) Catalog business

In the catalog business, we provide customers with lifestyle ideas in a wide variety of genres through a range of catalogs and the online shop "*Belle Maison Net.*" We also develop many original products that focus on Senshukai style.

Internet sales, and Internet-only sales* in particular, increased due to system strengthening in response to the spread of smartphones and tablets. However, as unseasonable weather lowered sales of apparel and fashion accessories, overall sales in the catalog business decreased 2.6% year-over-year to 118,135 million yen. (*Internet-only sales: A customer makes purchase by putting product into online shopping cart.)

2) *Hanpukai* business

The *hanpukai* business employs an original, unique sales model differing from other mail-order companies whereby original goods are delivered monthly to all group and individual members, mainly working women. Consolidated sales in the *hanpukai* business decreased 8.8% year-over-year to 8,362 million yen, due to a decline in the number of individual and corporate members.

(Bridal Business)

Consolidated sales in the bridal business, centered on the house wedding business, increased 5.2% year-over-year to 10,731 million yen in the current fiscal year, due to contributions from the opening of a new facility and an increase in average sales per wedding. Operating income decreased 6.7% year-over-year to 701 million yen.

(Corporates Business)

Consolidated sales in the corporates business, which provides products and services to corporations, increased 0.1% year-over-year to 3,838 million yen, and operating income decreased 0.8% year-over-year to 393 million yen.

(Others)

Consolidated sales in other businesses, which consist of the services business (primarily travel and credit card services) and the pet business (pet goods sales through retail stores), decreased 61.6% year-over-year to 484 million yen in the current fiscal year due to withdrawal from pet business. Operating income totaled 83 million yen, compared with an operating loss of 33 million yen in the previous fiscal year.

(2) Analysis of Financial Position**(Balance sheet position)**

Assets totaled 98,800 million yen at the end of the current fiscal year, an increase of 5,912 million yen from the end of the previous fiscal year.

Current assets increased 3,929 million yen to 50,177 million yen. The main factors were increases of 4,651 million yen in merchandise and finished goods, and 1,289 million yen in forward exchange contracts, while there were decreases of 957 million yen in cash and deposits, 595 million yen in short-term investment securities and 342 million yen in accounts receivable-other. Noncurrent assets increased 1,983 million yen to 48,622 million yen. The main factors were increases of 601 million yen in property, plant and equipment, and 1,923 million yen in investments and other assets, while there was a decrease of 542 million yen in intangible assets.

Current liabilities increased 2,572 million yen to 39,635 million yen. The main factors were increases of 6,204 million yen in electronically recorded obligations-operating and 2,980 million yen in short-term loans payable, while there were decreases of 5,499 million yen in accounts payable-factoring, and 1,577 million yen in notes and accounts payable-trade. Noncurrent liabilities decreased 2,087 million yen to 8,805 million yen. The main factors were decreases of 2,178 million yen in long-term loans payable and 700 million yen in bonds payable, while there was an increase of 499 million yen in lease obligations.

Net assets increased 5,427 million yen to 50,359 million yen. The main factors were increases of 2,772 million yen in retained earnings, 1,353 million yen in valuation difference on available-for-sale securities, and 839 million yen in deferred gains or losses on hedges. Consequently, the equity ratio was 51.0%.

(Cash flow position)

The balance of cash and cash equivalents at the end of the current fiscal year was 6,495 million yen, a decrease of 957 million yen from the end of the previous fiscal year.

Operating activities provided net cash of 2,174 million yen (net cash provided of 2,337 million yen in the previous fiscal year). The main cash inflows were an increase in notes and accounts payable-trade of 4,606 million yen, income before income taxes and minority interests of 3,760 million yen, depreciation and amortization of 2,618 million yen, and loss (gain) on sales and retirement of noncurrent assets of 656 million yen. The main cash outflows were a decrease in other current liabilities of 5,586 million yen, and an increase in inventories of 4,561 million yen.

Investing activities used net cash of 2,168 million yen (net cash used of 3,606 million yen in the previous fiscal year). The main cash outflows were 2,694 million yen for the purchase of property, plant and equipment, and 782 million yen for the purchase of intangible assets. The main cash inflows were proceeds from redemption of investment securities of 900 million yen.

Financing activities used net cash of 986 million yen (net cash provided of 991 million yen in the previous fiscal year). The main cash inflow was an increase in short-term loans payable of 3,000 million yen, while main cash outflows were repayment of long-term loans payable of 2,448 million yen, cash dividends paid of 950 million yen and redemption of bonds of 700 million yen.

Cash flow indices

	Fiscal Year 2011 (As of Dec. 31, 2011)	Fiscal Year 2012 (As of Dec. 31, 2012)	Fiscal Year 2013 (As of Dec. 31, 2013)
Equity ratio (%)	45.8	48.4	51.0
Equity ratio based on fair value (%)	24.8	24.7	38.6
Average debt repayment period (years)	24.8	5.9	6.7
Interest coverage ratio (times)	1.9	9.4	9.8

Notes: 1. Cash flow indices are calculated, using consolidated financial figures, as follows:

The equity ratio is shareholders' equity divided by total assets.

The equity ratio based on fair value is market capitalization divided by total assets.

The average debt repayment period is interest-bearing debt divided by the quantity of operating cash flows.

The interest coverage ratio is operating cash flows divided by interest payments.

2. Market capitalization is calculated by multiplying the closing share price at the end of the period by the number of shares issued and outstanding at the end of the period, excluding treasury stock.
3. Interest-bearing debt represents all liabilities shown on the consolidated balance sheet that incur interest.
4. Operating cash flows and interest payments represent net cash provided by (used in) operating activities and interest expenses paid, respectively, on the consolidated statement of cash flows.

(3) Basic Policy Regarding Distribution of Earnings and Dividends in the Current and Next Fiscal Years

The Group's basic policy is to strengthen the business foundation while maintaining stable dividends, taking into consideration the payout ratio, and ensuring a fair distribution of earnings to shareholders that reflects its business performance.

Specifically, the Group's policy regarding the distribution of earnings to shareholders is to strive continuously for a payout ratio of 30% on a consolidated basis. The Group will use internal reserves to invest in the development of new businesses for the medium to long term, to promote the efficiency of existing businesses, to conduct mergers and acquisitions for expanding the Group businesses, to improve the soundness of its financials, and to generally further strengthen its competitiveness and operations. Based on the aforementioned policies, the Group plans to pay a year-end dividend of 12 yen per share in line with initial plan. Together with an interim dividend of 12 yen per share, total annual dividend of 24 yen per share is to be paid.

Regarding dividends in Fiscal Year 2014, we plan to pay a total annual dividend of 24 yen per share comprised of an interim dividend of 12 yen per share and a year-end dividend of 12 yen per share, the same as in Fiscal Year 2013.

(4) Outlook for Fiscal Year 2014

The Japanese economy remains on a recovery path thanks to yen's depreciation and rising share prices since last year, and improvements in the employment and wage environment with the unemployment rate declining and companies raising wages. However, the outlook for personal consumption remains uncertain due to concerns about a drop in consumption by the reaction of consumption-tax hike in April.

In the new fiscal year, Senshukai forecasts sales will rise due to growth in the mail-order and bridal businesses, but forecasts a decline in profits at every level as the yen's depreciation and surging raw materials prices increase the cost-of-sales ratio, and reorganization of the logistics network increases temporary costs.

Based on this outlook, our earnings forecasts for the Fiscal Year 2014 are as follows.

Consolidated	(Millions of yen)			
	Net sales	Operating income	Ordinary income	Net income
Fiscal Year 2014 (forecast)	150,000	3,600	4,000	2,300
Fiscal Year 2013 (results)	141,552	4,019	4,631	4,046
Change (%)	6.0	(10.4)	(13.6)	(43.2)

* The above projections are based on information available at the time of release of this report. Actual results could differ from projections due to a variety of factors.

3. Management Policies

(1) Basic Management Policy

The Senshukai Group's corporate philosophy is to "contribute to society by providing customers with outstanding products and services."

Senshukai works together with its shareholders, customers, business partners, employees, and all other stakeholders to enhance corporate value and mutual prosperity.

(2) Key Performance Indicators

In the medium- to long-term management plan "Innovate for Smiles 2018" (Fiscal Year 2014 through Fiscal Year 2018), we aim to build a solid and distinct position in the mail-order market which is expected to continue growing while pro-actively developing new businesses appropriate to our corporate vision "Women's Smiles Company."

Specifically, we target consolidated net sales of 187 billion yen and operating income of 10 billion yen, by Fiscal Year 2018.

Going forward, we aim to enhance corporate value by striving for more unified group management, boosting growth, and constructing a solid earnings foundation.

(3) Medium- to Long-term Corporate Management Strategy and Issues

We have formulated a five-year medium- to long-term management plan "Innovate for Smiles 2018" to enhance corporate value.

Basic Policies of the Medium- to Long-term Management Plan

The four basic policies of the medium- to long-term management plan are as follows:

1) Mail-order Business

i. Customer strategy

Expand the customer base from our mainstay target of "childbearing and childrearing women" in their 30s and 40s, to "career women" as well as "active women in their 50s," a growing market.

ii. Merchandising strategy

Strengthen development of original brand products to differentiate ourselves from major mall-format e-commerce retailers. Strengthen and expand "SPA" (specialty store retailer of private label apparel) products where we control everything from planning, to manufacture and sales, in order to improve profitability.

iii. Sales channel strategy

Switch from a channel mix strategy centered on catalogs, to an omni-channel strategy centered on "original brand products," to build a structure that encourages customers to become fans of Senshukai Group through a variety of channels including mobile devices, PCs, and brick-and-mortar stores.

iv. Fulfillment strategy

Pro-actively invest in IT and logistics to improve customer convenience and minimize operational costs. Also, strengthen "customer targeting" based on each customer's individual needs and preferences.

2) Bridal Business

A subsidiary Dears Brain, Inc., which operates the bridal business centered on house weddings, continues to invest in wedding halls, renovating facilities and opening new ones that combine urban and suburban features, to expand sales. It also aims to improve profitability by revising promotions and lowering the merchandise cost rate.

3) Corporates Business

We grow the corporates business by focusing on mail-order contracting services which we expected to expand in step with growth of the e-commerce market. Also, we aim to improve the profitability of merchandise sales services and advertising services by enhancing our expertise.

4) New Businesses

We pro-actively develop new businesses from which we expect synergies with our core mail-order business. In particular, we focus on the “childcare business” given its close connection with childrearing women, main customer target.

(4) Other Important Business Matters

Not applicable.

Changes in Accounting Policies That Are Difficult to Distinguish from Changes in Accounting-based Estimates

(Change in depreciation method)

The Company and its domestic consolidated subsidiaries depreciate the property, plant and equipment acquired on or after January 1, 2013, using the depreciation method stipulated in the revised Corporation Tax Act from the current fiscal year, in line with revisions to the Corporation Tax Act.

This change has no significant effect on the amount of income for the current fiscal year.

Notes to Consolidated Statement of Income

*5. Impairment loss

The Senshukai Group posted impairment loss on the following asset groups.

Fiscal Year 2012 (Jan. 1, 2012 – Dec. 31, 2012)

(Millions of yen)			
Location	Primary use	Type	Impairment loss
Sanda City, Hyogo	Idle assets	Land	1
Shibuya Ward, Tokyo, and others	Business assets	Buildings and structures, and others	62

In principle, business assets are based on categories of management accounting. Idle assets are accounted independently.

Of the above asset groups, the Company marked down the book value of business assets to the recoverable amount reflecting weak prospects for improved short-term performance due to worsening operating profitability, and it marked down the book value of idle assets to the recoverable amount because of a decline in the assets' market value. These markdowns were booked as an impairment loss.

The impairment loss on buildings and structures, tools, furniture and fixtures, land, and intangible assets were 43 million yen, 7 million yen, 1 million yen, and 10 million yen, respectively.

The recoverable amount was measured at its net selling price. The net selling price was rationally estimated based on roadside land prices and other benchmarks.

The recoverable amount was measured at its net selling price. The net selling price was rationally estimated based on roadside land prices and other benchmarks.

Segment and Other Information

1. Overview of reportable segment

Segments used for financial reporting are the Company's constituent units for which separate financial information is available and for which the Board of Directors performs periodic studies for the purposes of determining the allocation of resources and evaluating performance.

The Senshukai Group primarily operates the mail-order business, bridal business, and corporates business, and the Company and its group companies manage each of these businesses according to these classifications.

Therefore the Group, comprised of these different business segments, has three reportable segments: the mail-order business, bridal business, and corporates business.

The mail-order business is engaged in mail-order sales via a variety of media centered on catalogs and the Internet. The bridal business provides mostly house wedding services. The corporates business uses the Company's infrastructure to provide solutions services and promotional services targeting mail-order companies and e-commerce businesses.

2. Calculation methods for net sales, profit/loss, assets, liabilities, and other items for each reportable segment

The accounting methods for reportable segments are the same as those used for preparing the consolidated financial statements.

Profits for reportable segments are generally operating income figures.

Inter-segment sales are based on market prices.

3. Information related to net sales and profit/loss, assets, liabilities, and other items for each reportable segment
